7 NAVY DESTROYERS PILE UP LIKE CORDWOOD

20 TO 25 OF THE CREWS LOST IN THE HEAVY SEAS

FLOTILLA RACING FULL STEAM AHEAD AT 20 KNOT GAIT THROUGH FOG

BOATS SMASHED UP LIKE SHEEP FOLLOWING THE LEADER AHEAD

Further Details of the Navy Disaster

Los Angeles, Sept. 10.—Twenty-two men are dead or missing in the wrecks of seven destroyers which crashed upon the rocks off Santa Barbara Saturday, it was semi-officially stated today. One body has been recovered, that of Fireman R. A. Conroy. Twenty-eight are in hospitals suffering serious injuries. Fifty received minor injuries not of a serious nature.

(By United Press)
Los Angeles, Sept. 10.—The pounding waves of the Pacific are slowly breaking up the seven navy destroyers which piled up like cordwood upon the jagged rocks of Pont Arguella Saturday night, causing the death of between 20 and 25 members of the crews. The exact number of sailors lost cannot be definitely determined.

The sea was running heavily, possibly reflecting the violence of the earthquakes, eruptions and tidal waves from Japan.

Racing full steam ahead at 20 knots through an impenetrable fog, the destroyers Delphi, Young, Chauncey, Woodbury, Fuller, S. P. Lee and Nicholas crashed on the rocks. Running in formation and believing themselves eight miles off shore, the boats piled up like sheep following a leader, each one steering by the lights of the boat ahead.

Wrecked on Treacherous Point
They lie today on the treacherous Pont Arguella north of Santa Barbara, where they probably will be completely destroyed.

Only one man, foreman's mate, named Conroy, of the Delphi, has been officially listed as dead by the Navy department. His body has been recovered. Nineteen of the Young have not been found, it is said. They have been reported as missing. Thirteen seamen received severe injuries, while half a hundred more were hurt and bruised during their rescue after swimming thru jagged rocks.

Half Dead From Exposure
More than half a hundred unclothed and unshaven "gobs" and officers saved from the wrecked destroyers have been taken from the wild, barren point to Santiago, half dead from exhaustion, exposure and lack of sleep. They lie sprawled on the floor or on the seats of the thirteen train coaches and tell the story of a night of terror and of the toll of their comrades.

Trapped Like Rats in the Hold
The men believe there are 20 dead on the destroyer Young. They think these comrades were trapped like rats in the hold of the ship when she went down beneath the surface in the crash.

On the destroyers Delphi—leader of the pack—three men went overboard, according to other members of the crew. One was knocked insensible and carried away on a monster comb which raked the vessel fore and aft.

Another, fireman Pearson, blinded by oil, went insane and fighting, tore himself away from his mates who attempted to hold him down, racing to his death in the surf. A third member of the crew lost his grip on the lifeline and was washed overboard. After the Delphi struck the rocks it was not more than an instant until the Young rammed up behind her and swung over against her side.

The Delphi's propeller, still racing, caught the Young in the bow, and aided by the big swell, kicked her over. Then the Chauncey piled up.

The commander of the Chauncey

Japan Shaken Sunday Noon by Another Quake

AMERICAN CONSUL DIED ATTEMPTING TO SAVE HIS WIFE

(By United Press)
Kobe, Sept. 10.—Max D. Kirjasoff, American consul in Yokohama, died while working desperately in the ruins of the consulate in search of his wife, according to an eye witness who arrived here from the stricken city. When the building collapsed following the earthquake, Kirjasoff escaped unhurt. Unable to find his wife and believing she was buried in the debris, he ran back and tried to tear aside the tangle of timbers in the hope of saving Mrs. Kirjasoff. A moment later the consul was pinned to the ground by huge girders. Fatally wounded, Kirjasoff managed to gasp out to members of the office staff: "Take care of my two boys." Then he died. The boys escaped injury.

HEIRESS SLAIN BY HER HUSBAND

MRS. ELSIE DISHER KILLED BY SPOUSE, LATTER COMMITS SUICIDE

(By United Press)
Scituate, Mass., Sept. 10.—Mrs. Elsie Disher, heiress of the Cheney silk fortune, was slain by her husband, Hiley Peter Disher, who immediately after committed suicide, police announced today.

The tragedy occurred in the Disher home. Disher was a former army aviator. The murder and suicide occurred early today. Disher shot his wife and then turned the weapon on himself. The Dishers were married three years and were childless. Domestic difficulties lead to the tragedy, police said. The Dishers quarreled frequently, and Mrs. Disher planned to sue for divorce, police were told.

had just a flash of warning. He ordered full speed astern when he was bearing down a few feet from the others, but it was too late.

The Chauncey swung up against the Young, and the Young's propeller in turn ripped her open, and she was piled up on the rocks.

The Nicholas, Woodbury and Fuller rushed up behind within a few seconds. The S. P. Lee, following on the running waves, was warned too late, and she too piled up.

The rapid disappearance of lights warned eleven other destroyers which were following the squadron close behind. They escaped because of the proximity of the shoals. However, they were unable to do much to help the others.

Death Trap of Destroyers
This was the death trap of the destroyers. The Delphi raced up and keeled over on her side in a minute and 30 seconds. The Chauncey followed, and it is believed that 20 or more men, helpless in a compartment on the lower side and under water, were lost. This was reported by members of the crew who escaped.

Blame Accident On "UNUSUAL CURRENT"
San Francisco, Sept. 10.—"Some unusual current in Santa Barbara channel" was given in an official announcement by navy headquarters here today as the probable cause of Saturday night's wreck of seven destroyers near Pont Arguella, California.

The statement did not mention the Japanese earthquake and tidal waves but it was known that naval officers had that phenomena in mind and they believed that some weird reflection across the Pacific upset the current off the coast and threw on the rocks the seven fighting ships.

This announcement was made in connection with the convening of a board of inquiry to determine cause and responsibility for the disaster. The inquiry will be held at San Diego, Calif.

JAPAN QUAKE AND ROW IN EUROPE TONE DOWN COMMODITIES

DISASTER THROWS MONKEY-WRENCH INTO MERCANTILE WHEELS OF AMERICA

CHANGING SEASON AND CROP SITUATION WIELD INFLUENCE IN HOME CIRCLES

(By N. Y. Journal of Commerce)
New York, Sept. 10.—Two great external influences and at least one dominant one at home, have added interest to the commodity market this week.

First of all the Japanese disaster has thrown a monkey wrench into the mercantile wheels of America and all balances of opinion as well as of supply and demand have temporarily been upset by the upheaval. Such questions as the reduced, or perhaps increased buying spirit and capacity of Nippon, the impaired productivity of the land and the changed maritime topography and the financial stability of Japanese institutions are international questions, and thus far advice have been aggravatingly vague on such lines. Of course, the reaction is felt in every mercantile line.

The exchange of "sassy" communications between Italy and Greece and the sudden dumping of real work on the League of Nations also has created a flurry in the European area, but as yet it has done no further damage than to set a few nerves on edge and make trading in Europe somewhat risky. In export circles it actually has created alternate waves of dullness, suppressed trade and renewed activity; partly due to physical considerations and also on account of monetary unsteadiness.

The home influence chiefly noted is the changing season and the crop situation. Cotton and grain are not yet clearly defined as to their outlook and in both cases, coupled with the foreign effects, are showing some excitement. Cotton especially is apprehensive, in the face of a possible third consecutive year of short crop. In mercantile circles, the long continued refusal to buy freely is facing an impending reaction, likely to result in something like a boom.

D. A. PETERSON OF BRAINERD NAMED CHIEF GAME WARDEN

St. Paul, Sept. 10.—D. A. Peterson, Brainerd, was appointed chief state game warden by J. F. Gould, new state game and fish commissioner, this morning.

The office of chief game warden was created by Gould a few days ago. Peterson has been a game warden for six years.

\$1,300 WORTH OF WHISKY ON A SOO LINE TRAIN

Minneapolis, Sept. 10.—Police today are searching for the owner of \$1,300 worth of Canadian whiskey found on a Soo Line train last night. Five suitcases and three wooden cases filled with liquor were found in a compartment of the train.

The porter in whose car the booze was found said he knew nothing about it, and all other employees on the train had the same report to make.

The liquor is now in the Minneapolis station.

W. T. Cox Goes to North of State
St. Paul, Sept. 10.—W. T. Cox, state forester, left today for northern Minnesota, to try to prevent forest fires.

He will speak tomorrow on forestry before the Hibbing Kiwanis club. Then he will confer with northern rangers to determine the cause of numerous peat fires and also make plans to prevent other outbreaks.

50 KILLED OR HURT IN CALCUTTA QUAKE AT 3:57 A. M. TODAY

(By United Press)
Calcutta, Sept. 10.—Fifty persons were killed or injured and many houses collapsed in the Mimen Singh district of Calcutta when the city was shaken by a severe earthquake at 3:57 a. m. today.

MINNESOTA INQUIRY ON OIL PRICES WILL START WEDNESDAY

STANDARD AND INDEPENDENT OFFICIALS, AUTO CLUB AIDS INVITED TO HEARING

QUIZ ORDERED BY PREUS AFTER S. D. GOVERNOR LAUNCHED STATE GASOLINE SALE

Minnesota's official inquiry, to determine whether citizens were paying from \$5,000,000 to \$10,000,000 too much every year for gasoline, lubricating oil and kerosene, will be launched Wednesday at the state capitol, at a hearing before N. J. Holmberg, commissioner of agriculture.

Officials of the Standard Oil company of Indiana, and independent oil companies, and members of the Automobile Club of Minneapolis, and of the Minneapolis city council, have been invited to attend the meeting.

The inquiry was ordered by Governor J. A. O. Preus, after Governor W. H. McMaster of South Dakota ordered a state sale of gasoline at 16 cents a gallon. The price war resulting brought a cut in prices here from 23.5 cents to 16.9 cents.

Mr. Holmberg will seek information on cost, freight, handling and methods of business, in an effort to determine a fair price for gasoline.

At the hearing the commissioner will be assisted by J. H. Hay, his chief deputy, and by Albert F. Pratt, assistant attorney general.

Experts recently estimated that "if 16.9 cents a gallon was a fair price for gasoline," automobilists in the state paid \$9,991,001.70 too much for gasoline in 1922.

The price drop from 23.5 to 16.9 cents went into effect in the twin cities Aug. 15, effecting an estimated saving to motorists of \$6,000 a day.

"The investigation will be carried on to the finish," Mr. Holmberg said, "to determine what is a fair price for the independents, the large companies, and the consumer."

Assistants have been busy gathering data on gasoline consumption, operation of refineries and distributing methods.

ARMORED CAR BATTLES MADMAN

LATTER SHOT AND KILLED WIFE AND WOUNDED TWO POLICEMEN

Belleville, Ill., Sept. 10.—An armored St. Louis police car loaded with sharpshooters was rushed here today to end a battle of several hours between police and a madman, who shot and killed his wife and wounded two policemen. After shooting the policemen, the slayer barricaded himself in his home and at noon was successfully holding off 18 attackers. The reinforcements in the armored car were armed with rifles, tear bombs and riot guns.

New York, Sept. 10.—Supreme Court Justice Hagerly in Brooklyn today denied the application for a writ of mandamus to prevent the Dempsey-Firpo fight September 14, filed by Harry Willis, colored heavyweight, and his manager, Paddy Mullins.

ADDS TO TERROR AND HAVOC IN THE ISLAND KINGDOM

BELIEVED A GREAT VOLCANIC UPHEAVAL IS CONTINUING DEEP UNDERGROUND

MANY REFUGEES ARE GOING MAD BECAUSE OF THEIR EXPERIENCES

47,000 Dead In Tokio Reported

Washington, Sept. 10.—An official estimate of the dead in the Tokio-Yokohama disaster received today by the Japanese embassy here from its government stated that "up to September 7 there were 47,000 dead in Tokio alone."

By CLARENCE DUBOSE, (Copyright 1923 by United Press) Copyright in Canada

Tokio, Noon, by Radio from Iwaki, Japan, Sept. 10.—Japan was shaken at noon today (Sunday) by another sharp earthquake. While it and a number of similar shocks which preceded it during the last few days was light, it added to the terror and increased the havoc which prevails here.

It was accepted as possible that a vast volcanic upheaval—probably the greatest since the Japanese islands were thrown up from the sea—is continuing deep down in the earth.

Danger of an epidemic of typhoid and dysentery has become grave. Relief workers are bending every effort to combat disease.

Many refugees are going mad as a result of their experiences. Twelve foreigners who escaped from Yokohama are doomed for the madhouse. Several are already idiots. These twelve were forced to stand helplessly by during the quake and see five children burning to death.

The twelve found personal safety for themselves aboard warships in the harbor.

The government and foreign agencies concentrated on immediate efforts to prevent the threatened shortage of food and to restore communications, including railroads and telegraph.

The people, still frightened but not disheartened, begin to have thoughts of their homes, from which they had fled when the first earthquake and then fire struck their deadly blows.

They turned to helping each other.

Among great throngs of refugees who huddled in parks and open spaces, huddled there first for safety and now because they have no other place to go, even the poorest coolie stands ready to share his last bowl of rice.

Each day has made it more clear that the task of reconstruction will probably take years, comparable only to the rehabilitation of the devastated areas in France.

Numerous Americans were reported destitute. Ambassador Woods is attempting to bring about their relief and provide transportation home.

Belated reports tell of the Grand and Oriental hotels in Yokohama crashing instantly into heaps of wreckage as the earthquake struck the city, becoming traps in which practically all the occupants were killed.

The Tokio business district, seven miles long and two miles wide, is only ashes. It is as if every building in New York from the Battery to Harlem were burned and half of the remainder of the city destroyed.

After the first great quake minor shocks continued. A high wind prevailed, fanning into greater fury the fire which swept Tokio and Yokohama.

Then came a rain which extinguished the fire but only added to the suffering of the refugees, the millions who were homeless and

EXHIBIT OF COUNTY AT FAIR WON PRIZE OF \$390.00 IN CASH

D. D. Schrader has returned from the state fair with a gleam of triumph in his eyes. It has a right to shine, for Dave carried with him a check from the fair for \$390, being the amount of prize money won by the Crow Wing County Agricultural society on its exhibit.

It was a remarkable exhibit. There was the wonderful showing of grains, grasses, fruits, etc.; flanked by the comprehensive exhibit of iron ore, mine model, etc., gathered by Representative Edward P. Scallon of Crosby, plus the game and fish exhibit marshalled by Deputy Game Wardens D. A. Peterson and A. P. Cardle.

All who had a hand in bringing victory to the banners of Crow Wing county, and these include County Agent E. G. Roth, county fair management, those named above and others, are entitled to thanks for the publicity secured. The county fair board has a meeting tomorrow at Pequot.

U. S. SHIP WRECKED OFF PACIFIC COAST

NAVY VESSEL PICKING UP SURVIVORS AND ANOTHER DESTROYER STANDING BY

Long Beach, Calif., Sept. 10.—Chief officer Wise and eight of the crew of the Pacific mail steamer Cuba are adrift in a small boat while the ship is breaking up on the rocks off Point Bennett, San Miguel Islands. Wise and the men set out in an effort to reach help ashore before the arrival of the U. S. S. Reno.

A heavy fog hangs over the scene of the wreck. While some fears were expressed for the safety of the boat load of nine men adrift, it was believed they may have reached one of the islands nearby.

The Cuba, its wireless out of commission, and with three holds and its engine room flooded, was reported breaking up rapidly in the heavy swell.

The Reno wirelessly that it was picking up survivors but gave no further details of the accidents. The Melville is standing by to give any additional aid needed, according to the wireless.

The Cuba was en route to San Francisco. It lies between the Panama canal, the coast of Mexico to San Francisco.

PASSENGER FREIGHTER CUBA STILL AFLOAT

Los Angeles, Sept. 10.—Captain Holland of the passenger freighter Cuba and a few men are still guarding the wreck of the vessel, while the smashing waves threaten to break her up any minute, according to latest word today.

Federal Telegraph radio dispatches reported that the Pacific Mail Line ship which went on the rocks off San Miguel Saturday is still afloat.

CLAIM PASSIVE RESISTANCE WAS ORDERED STOPPED

London, Sept. 10.—A Central News dispatch, entirely unconfirmed from any source, says the Ruhr population has been ordered to discontinue passive resistance.

sleeping on the ground in the parks. Most of the foreigners concentrated in the parks and in front of the Imperial hotel.

Main street in Yokohama was one of the worst death traps. The tops of buildings toppled inwards, wounding many as they fled through the streets in terror.

Practically every city in a radius of several hundred miles from Yokohama reported severe shocks. Many lives were lost when cliff residences toppled into the sea as if shoved by some giant hand.

LEAGUE NATIONS AGAIN SIDESTEPS BY ADJOURNING

EVADES QUESTION OF INCOMPETENCY TO DEAL WITH GRECO-ITALIAN QUESTION

ITALY IN THE MEANTIME KEEPS ON TAKING OVER GREEK ISLANDS

(By United Press)
Geneva, Sept. 10.—The League of Nations today once more evaded the question of its competency to deal with the Greco-Italian imbroglio by adjourning. While the adjournment ostensibly was voted out of sympathy with Japan, the action was interpreted as taken to prevent dissatisfied delegates forcing action by the assembly on the question of competence, challenged by Mussolini.

In well-informed quarters it was agreed to be impossible to delay the question for more than 24 hours longer. The question of whether the League is competent to deal with major international disputes must be decided, it was conceded.

Ireland was unanimously elected to membership in the League. President Cosgrave of Ireland delivered a brief address.

Epicacio Paso, former president of Brazil, was elected to fill the vacancy on the Hague court created by the death of Ruy Barbosa, famous Brazilian statesman.

ITALIAN PARTY TAKES ISLAND OF LEROS

Rome, Sept. 10.—An Italian landing party from the destroyer Pepe occupied the island of Leros, near Corfu, today. The party met with no resistance.

RED CROSS ASKED TO HELP U. S. FARMERS

FARM BUREAU URGES BODY TO BUY JAPAN RELIEF FOOD IN AMERICA

Chicago, Sept. 10.—The American Farm Bureau federation has moved to make the \$5,250,000 Red Cross relief fund serve the dual purpose of aiding the Japanese tragedy victims and the financially depressed American farmer.

O. E. Bradfute, president of the federation, sent a telegram to President Coolidge urging that the money collected be spent for grain and food produced in the United States, thereby exerting a healthful influence on the market and aiding the farmer who is suffering from price depression.

The telegram: "We have advised farmers to make immediate liberal gifts in cash thru the Red Cross, rather than to collect food and grain to forward. We hope that money donated in the United States will be spent and aid given with grain and food produced in the United States."

Agricultural authorities here today declared the Japanese misfortune which destroyed a large percentage of the rice supply of the world would aid the industry in this country, driving prices to the American producer upwards.

UNFILED TONNAGE OF U. S. STEEL CORPORATION

New York, Sept. 10.—The unfiled tonnage of the United States Steel corporation announced today showed a decrease of 496,100.

The unfiled tonnage on August 31 was 5,414,663, against 5,910,763 July 31, 1923; 6,386,261 June 30; 6,981,351, May 31 and 5,950,105 August 31, 1922.

Japan Shaken Sunday Noon by Another Quake

* AMERICAN CONSUL DIED ATTEMPTING TO SAVE HIS WIFE *

(By United Press)

Kobe, Sept. 10.—Max D. Kirjassoff, American consul in Yokohama, died while working desperately in the ruins of the consulate in search of his wife, according to an eye witness who arrived here from the stricken city.

When the building collapsed following the earthquake, Kirjassoff escaped unhurt. Unable to find his wife and believing she was buried in the debris, he ran back and tried to tear aside the tangle of timbers in the hope of saving Mrs. Kirjassoff. A moment later the consul was pinned to the ground by huge girders.

Fatally wounded, Kirjassoff managed to gasp out to members of the office staff:

"Take care of my two boys."

Then he died.

The boys escaped injury.

HEIRESS SLAIN BY HER HUSBAND

MRS. ELSIE DISHER KILLED BY SPOUSE, LATTER COMMITS SUICIDE

(By United Press)

Scituate, Mass., Sept. 10.—Mrs. Elsie Disher, heiress of the Cheney silk fortune, was slain by her husband, Hiley Peter Disher, who immediately after committed suicide, police announced today.

The tragedy occurred in the Disher home. Disher was a former army aviator.

The murder and suicide occurred early today. Disher shot his wife and then turned the weapon on himself. The Dishers were married three years and were childless. Domestic difficulties lead to the tragedy, police said. The Dishers quarreled frequently, and Mrs. Disher planned to sue for divorce, police were told.

had just a flash of warning. He ordered full speed astern when he was bearing down a few feet from the others, but it was too late.

The Chauncey swung up against the Young, and the Young's propeller in turn ripped her open, and she was piled up on the rocks.

The Nicholas, Woodbury and Fuller rushed up behind within a few seconds. The S. P. Lee, following on the running waves, was warned too late, and she too piled up.

The rapid disappearance of lights warned eleven other destroyers which were following the squadron close behind. They escaped because of the proximity of the shoals. However, they were unable to do much to help the others.

Death Trap of Destroyers

This was the death trap of the destroyers. The Delphi raced up and keeled over on her side in a minute and 30 seconds. The Chauncey followed, and it is believed that 20 or more men, helpless in a compartment on the lower side and under water, were lost. This was reported by members of the crew who escaped.

BLAME ACCIDENT ON

"UNUSUAL CURRENT"

San Francisco, Sept. 10.—"Some unusual current in Santa Barbara channel" was given in an official announcement by navy headquarters here today as the probable cause of Saturday night's wreck of seven destroyers near Pont Arguella, California.

The statement did not mention the Japanese earthquake and tidal waves but it was known that naval officers had that phenomena in mind and they believed that some weird reflection across the Pacific upset the current off the coast and threw on the rocks the seven fighting ships.

This announcement was made in connection with the convening of a board of inquiry to determine cause and responsibility for the disaster.

The inquiry will be held at Santiago, Calif.

JAPAN QUAKE AND ROW IN EUROPE TONE DOWN COMMODITIES

DISASTER THROWS MONKEY-
WRENCH INTO MERCANTILE
WHEELS OF AMERICA

CHANGING SEASON AND CROP SITUATION WIELD INFLUENCE IN HOME CIRCLES

(By N. Y. Journal of Commerce)

New York, Sept. 10.—Two great external influences and at least one dominant one at home, have added interest to the commodity market this week.

First of all the Japanese disaster has thrown a monkey wrench into the mercantile wheels of America and all balances of opinion as well as of supply and demand have temporarily been upset by the upheaval. Such questions as the reduced, or perhaps increased buying spirit and capacity of Nippon, the impaired productivity of the land and the changed maritime topography and the financial stability of Japanese institutions are international questions, and thus far advice have been aggravatingly vague on such lines. Of course, the reaction is felt in every mercantile line.

The exchange of "sassy" communications between Italy and Greece and the sudden dumping of real work on the League of Nations also has created a flurry in the European area, but as yet it has done no further damage than to set a few nerves on edge and make trading in Europe somewhat risky. In export circles it actually has created alternate waves of dullness, suppressed trade and renewed activity; partly due to physical considerations and also on account of monetary unsteadiness.

The home influence chiefly noted is the changing season and the crop situation. Cotton and grain are not yet clearly defined as to their outlook and in both cases, coupled with the foreign effects, are showing some excitement. Cotton especially is apprehensive, in the face of a possible third consecutive year of short crop. In mercantile circles, the long continued refusal to buy freely is facing an impending reaction, likely to result in something like a boom.

D. A. PETERSON OF BRAINERD NAMED CHIEF GAME WARDEN

St. Paul, Sept. 10.—D. A. Peterson, Brainerd, was appointed chief state game warden by J. F. Gould, new state game and fish commissioner, this morning.

The office of chief game warden was created by Gould a few days ago. Peterson has been a game warden for six years.

\$1,300 WORTH OF WHISKY ON A SOO LINE TRAIN

Minneapolis, Sept. 10.—Police today are searching for the owner of \$1300 worth of Canadian whiskey found on a Soo Line train last night.

Five suitcases and three wooden cases filled with liquor were found in a compartment of the train.

The porter in whose car the booze was found said he knew nothing about it, and all other employees on the train had the same report to make.

The liquor is now in the Minneapolis station.

W. T. Cox Goes to North of State

St. Paul, Sept. 10.—W. T. Cox, state forester, left today for northern Minnesota, to try to prevent forest fires.

He will speak tomorrow on forestry before the Hibbing Kiwanis club. Then he will confer with northern rangers to determine the cause of numerous peat fires and also make plans to prevent other outbreaks.

* 50 KILLED OR HURT IN CALCUTTA QUAKE AT 3:57 A. M. TODAY *

(By United Press)

MINNESOTA INQUIRY ON OIL PRICES WILL START WEDNESDAY

STANDARD AND INDEPENDENT
OFFICIALS, AUTO CLUB AIDS
INVITED TO HEARING

QUIZ ORDERED BY PREUS AFTER S. D. GOVERNOR LAUNCHED STATE GASOLINE SALE

Minnesota's official inquiry, to determine whether citizens were paying from \$5,000,000 to \$10,000,000 too much every year for gasoline, lubricating oil and kerosene, will be launched Wednesday at the state capitol, at a hearing before N. J. Holmberg, commissioner of agriculture.

Officials of the Standard Oil company of Indiana, and independent oil companies, and members of the Automobile Club of Minneapolis, and of the Minneapolis city council, have been invited to attend the meeting.

The inquiry was ordered by Governor J. A. O. Preus, after Governor W. H. McMaster of South Dakota ordered a state sale of gasoline at 16 cents a gallon. The price war resulting brought a cut in prices here of from 23.5 cents to 16.9 cents.

Mr. Holmberg will seek information on cost, freight, handling and methods of business, in an effort to determine a fair price for gasoline. At the hearing the commissioner will be assisted by J. H. Hay, his chief deputy, and by Albert F. Pratt, assistant attorney general.

Experts recently estimated that "if 16.9 cents a gallon was a fair price for gasoline," automobilists in the state paid \$9,991,001.70 too much for gasoline in 1922.

The price drop from 23.5 to 16.9 cents went into effect in the twin cities Aug. 15, effecting an estimated saving to motorists of \$6,000 a day.

"The investigation will be carried out to the finish," Mr. Holmberg said, "to determine what is a fair price for the independents, the large companies, and the consumer."

Assistants have been busy gathering data on gasoline consumption, operation of refineries and distributing methods.

ARMORED CAR BATTLES MADMAN

LATER SHOT AND KILLED WIFE AND WOUNDED TWO POLICE- MEN

Belleville, Ill., Sept. 10.—An armored St. Louis police car loaded with sharpshooters was rushed here today to end a battle of several hours between police and a madman, who shot and killed his wife and wounded two policemen. After shooting the policemen, the slayer barricaded himself in his home and at noon was successfully holding off 18 attackers. The reinforcements in the armored car were armed with rifles, tear bombs and riot guns.

New York, Sept. 10.—Supreme Court Justice Hagerly in Brooklyn today denied the application for a writ of mandamus to prevent the Dempsey-Firpo fight September 14, filed by Harry Wills, colored heavyweight, and his manager, Paddy Mulins.

Tokio, Noon, by Radio from Iwaki, Japan, Sept. 10.—Japan was shaken at noon today (Sunday) by another sharp earthquake. While it and a number of similar shocks which preceded it during the last few days was light, it added to the terror and increased the havoc which prevails here.

It was accepted as possible that a vast volcanic upheaval—probably the greatest since the Japanese islands were thrown up from the sea—is continuing deep down in the earth.

Danger of an epidemic of typhoid and dysentery has become grave. Relief workers are bending every effort to combat disease.

Many refugees are going mad as a result of their experiences. Twelve foreigners who escaped from Yokohama are doomed for the madhouse. Several are already idiots. These twelve were forced to stand helplessly by during the quake and see five children burning to death.

The twelve found personal safety for themselves aboard warships in the harbor.

The government and foreign agencies concentrated on immediate efforts to prevent the threatened shortage of food and to restore communications, including railroads and telegraph.

The people, still frightened but not disheartened, begin to have thoughts of their homes, from which they had fled when the first earthquake and then fire struck their deadly blows.

They turned to helping each other.

Among great throngs of refugees who huddled in parks and open spaces, huddled there first for safety and now because they have no other place to go, even the poorest coolie stands ready to share his last bowl of rice.

Each day has made it more clear that the task of reconstruction will probably take years, comparable only to the rehabilitation of the devastated areas in France.

Numerous Americans were reported destitute. Ambassador Woods is attempting to bring about their relief and provide transportation home.

Belated reports tell of the Grand and Oriental hotels in Yokohama crashing instantly into heaps of wreckage as the earthquake struck the city, becoming traps in which practically all the occupants were killed.

The Tokio business district, seven miles long and two miles wide, is only ashes. It is as if every building in New York from the Battery to Harlem were burned and half of the remainder of the city destroyed.

After the first great quake minor shocks continued. A high wind prevailed, fanning into greater fury the fire which swept Tokio and Yokohama.

Then came a rain which extinguished the fire but only added to the suffering of the refugees, the millions who were homeless and

* EXHIBIT OF COUNTY AT FAIR WON PRIZE OF \$390.00 IN CASH *

D. D. Schrader has returned from the state fair with a gleam of triumph in his eyes. It has a right to shine, for Dave carried with him a check from the fair for \$390, being the amount of prize money won by the Crow Wing County Agricultural society on its exhibit.

It was a remarkable exhibit. There was the wonderful showing of grains, grasses, fruits, etc.; flanked by the comprehensive exhibit of iron ore, mine model, etc., gathered by Representative Edward P. Scallon of Crosby, plus the game and fish exhibit marshalled by Deputy Game Warden D. A. Peterson and A. P. Cardle.

All who had a hand in bringing victory to the banners of Crow Wing county, and these include County Agent E. G. Roth, county fair management, those named above and others, are entitled to thanks for the publicity secured. The county fair board has a meeting tomorrow at Pequot.

U. S. SHIP WRECKED OFF PACIFIC COAST

NAVY VESSEL PICKING UP SUR- VIVORS AND ANOTHER DES- TROYER STANDING BY

Long Beach, Calif., Sept. 10.—Chief officer Wise and eight of the crew of the Pacific mail steamer Cuba are adrift in a small boat while the ship is breaking up on the rocks off Point Bennett, San Miguel Islands. Wise and the men set out in an effort to reach help ashore before the arrival of the U. S. S. Reno.

A heavy fog hangs over the scene of the wreck. While some fears were expressed for the safety of the boat load of nine men adrift, it was believed they may have reached one of the islands nearby.

The Cuba, its wireless out of commission, and with three holds and its engine room flooded, was reported breaking up rapidly in the heavy swell.

The Reno wirelessly that it was picking up survivors but gave no further details of the accidents. The Melville is standing by to give any additional aid needed, according to the wireless.

The Cuba was en route to San Francisco. It plys between the Panama canal, up the coast of Mexico to San Francisco.

PASSENGER FREIGHTER CUBA STILL AFLOAT

Los Angeles, Sept. 10.—Captain Holland of the passenger freighter Cuba and a few men are still guarding the wreck of the vessel, while the smashing waves threaten to break her up any minute, according to latest word today.

Federal Telegraph radio dispatches reported that the Pacific Mail Line ship which went on the rocks off San Miguel Saturday is still afloat.

CLAIM PASSIVE RESISTANCE WAS ORDERED STOPPED

London, Sept. 10.—A Central News dispatch, entirely unconfirmed from any source, says the Ruhr population has been ordered to discontinue passive resistance.

sleeping on the ground in the parks. Most of the foreigners concentrated in the parks and in front of the Imperial hotel.

Main street in Yokohama was one of the worst death traps. The tops of buildings toppled inwards, wounding many as they fled through the streets in terror.

Practically every city in a radius of several hundred miles from Yokohama reported severe shocks. Many lives were lost when cliff residences toppled into the sea as if shoved by some giant hand.

LEAGUE NATIONS AGAIN SIDESTEPS BY ADJOURNING

EVAVES QUESTION OF INCOMPE-
TENCY TO DEAL WITH GRECO-
ITALIAN QUESTION

ITALY IN THE MEANTIME KEEPS ON TAKING OVER GREEK ISLANDS

(By United Press)

Geneva, Sept. 10.—The League of Nations today once more evaded the question of its competency to deal with the Greco-Italian imbroglio by adjourning. While the adjournment ostensibly was voted out of sympathy with Japan, the action was interpreted as taken to prevent dissatisfied delegates forcing action by the assembly on the question of competence, challenged by Mussolini.

In well-informed quarters it was agreed to be impossible to delay the question for more than 24 hours longer. The question of whether the League is competent to deal with major international disputes must be decided, it was conceded.

Ireland was unanimously elected to membership in the League. President Cosgrave of Ireland delivered a brief address.

Epicacio Paso, former president of Brazil, was elected to fill the vacancy on the Hague court created by the death of Ruy Barbosa, famous Brazilian statesman.

ITALIAN PARTY TAKES ISLAND OF LEROS

Rome, Sept. 10.—An Italian landing party from the destroyer Pepe occupied the island of Leros, near Corfu, today. The party met with no resistance.

RED CROSS ASKED TO HELP U. S. FARMERS

FARM BUREAU URGES BODY TO BUY JAPAN RELIEF FOOD IN AMERICA

Chicago, Sept. 10.—The American Farm Bureau federation has moved to make the \$5,250,000 Red Cross relief fund serve the dual purpose of aiding the Japanese tragedy victims and the financially depressed American farmer.

O. E. Bradfute, president of the federation, sent a telegram to President Coolidge urging that the money collected be spent for grain and food produced in the United States, thereby exerting a healthful influence on the market and aiding the farmer who is suffering from price depression.

The telegram:

"We have advised farmers to make immediate liberal gifts in cash thru the Red Cross, rather than to collect food and grain to forward. We hope that money donated in the United States will be spent and aid given with grain and food produced in the United States."

Agricultural authorities here today declared the Japanese misfortune which destroyed a large percentage of the rice supply of the world would aid the industry in this country, driving prices to the American producer upwards.

UNFILED TONNAGE OF U. S. STEEL COPORATION

New York, Sept. 10.—The unfiled tonnage of the United States Steel corporation announced today showed a decrease of 496,100.

The unfiled tonnage on August 31 was 5,414,663, against 5,910,763 July 31, 1923; 6,386,261 June 30; 6,981,351, May 31 and 5,950,105 August 31, 1922.

FOURTEEN LADIES AT "WIGWAM" DINNER

Enjoyed the Hospitality of Mrs. M. A. Bronson on Saturday Afternoon

D. A. R. PLANS TALKED OVER

Wonderful Five Course Dinner Followed by Interesting Social Hour

Fourteen ladies traveled to Merrifield Saturday afternoon and enjoyed the hospitality of Mrs. M. A. Bronson at the Wigwam at five o'clock dinner.

The purpose of this pilgrimage was to talk over plans for the organization of a local chapter of the Daughters of the American Revolution of which Mrs. Bronson is district regent.

The hostess served a wonderful five-course dinner to her guests, preparing it and serving it without assistance.

A delightful social hour followed in which the D. A. R. was the principal subject of conversation. No date could be definitely set for organization of the Brainerd chapter, but it is hoped that it will be during the month of October. Usually such occasions are set on some continental holiday, if possible. A suitable name was also discussed for the new chapter, but no decision on this point was reached.

The ladies attending were Mrs. F. S. Parker, Mrs. R. T. Campbell, Mrs. W. H. Gemmell, Mrs. F. W. Wieland, Mrs. E. W. Kaley, Mrs. Louis Knudsen, Mrs. J. R. Smith, Mrs. J. M. Hayes, Mrs. A. L. Alexander, Mrs. L. B. Treglawney, Mrs. Bert Kylo, Mrs. E. T. Fleener, Mrs. Herbert Hughes, all of Brainerd, and Miss Nellie Emerson, of St. Paul.

TEA WAS DELIGHTFUL

Many of New Teachers of City Accepted Hospitality of Business & Professional Women

The tea given Sunday afternoon at the Business & Professional Women's club was a delightful affair and largely attended. Many of the new teachers accepted the hospitality of the club and were favorably impressed with the warm cordiality of its members.

Large baskets of cismos added to the attractiveness of the rooms and were used in profusion on the tea table and trays. Dainty refreshments were served by the hostesses, the Misses Erickson, Michael and Shello.

P. D. Watson Tailor Shop Now on Second Floor Walverman Block

Philip D. Watson who for the past few years has been conducting a tailoring department in the John M. Bye store has moved to the second floor of the Walverman block and is occupying the room formerly used by the Christian Science society. He is equipped to do tailoring, pressing, repairing and dry cleaning of men's and ladies clothes and will be pleased to meet old and new friends in his new place of business.

CHILD WELFARE BOARD

Electric Poster Machine Was Exhibited at the County Fair by Two Ladies

The monthly meeting of the Child Welfare Board was held, Thursday September 6th, at the office at the Court House. Mrs. W. H. Gemmell, chairman and Miss Newman, Executive Secretary were in constant attendance for the three days at the county fair, where they had charge of the electric poster machine sent up by the State Board of Control. This machine is the one which attracted so much favorable comment when exhibited in Brainerd last fall. There was much interest expressed in it at the county fair and it was the judgment of several of the officers that another year it should be exhibited in the Main Hall. The machine was sent down on the truck with the county exhibit to the state fair, where it was exhibited in the State Exhibits Building. On account of the activities at the fair, the regular meeting of the Child Welfare Board, which is held on the first Saturday of each month, was postponed to the date mentioned.

The State Conference of Social work was announced. This occurs this year in Duluth, September 22, 23, 24 and 25. It provides for a conference of Judges of Probate and of County Commissioners as well as of Social workers. There is also a Public Health section. Last year sixteen counties were represented, usually by several individuals. The public is invited to attend the sessions at which important subjects of public welfare are discussed.

The Child Welfare Car Fund is now nearing completion and a full report will be printed as soon as all needs are provided for.

Vandals at Work

Vandals, using a sharp jack-knife, cut both tires and the leather seat all to shreds on the new bicycle of the Service News Agency Saturday night between 11 P. M. and 2 A. M. some time while it was standing between the Dispatch building and the News Agency where the boys left it while they met the St. Paul train for the Sunday papers.

If You Are in Need of A Suit or Overcoat

this is your best opportunity to come and get your choice from the largest and noblest line of woollens that ever came under your observation, an advantage of selecting from a stock worth approximately \$20,000. Our style booklets will show you very attractive styles for this season that will be pleasing to both conservative and fancy dressers. Come and see our goods while line is complete. Get a suit that fits. Prices right. My time is your time at all times.

COMPLETE MANY MILES GRADING

Large Number of City Streets Have Been Greatly Improved During Past Few Weeks

WORK GREATLY APPRECIATED

Alderman Peterson and City Engineer Campbell Instrumental in Securing Improvement

Through the efforts of Alderman A. D. Peterson, chairman of the street committee, and City Engineer R. T. Campbell, with the cooperation of the city council a large number of the streets of the city that have never been graded or improved in any way before have been graded and put in much better condition during the past few weeks. The city drag is being repaired and the streets will all be dragged as quickly as is possible.

These improvements are greatly appreciated by the residents on these streets and the delivery men and others who have to make use of them.

This work was done by one of the state tractors and graders and covers about eight miles of streets in all sections of the city and it is very good work considering the limited funds available for this purpose.

The street committee have nearly two more miles of streets listed for improvement as soon as the grader can be secured again.

The work done by the city on these streets will be more fully appreciated in the spring of the year when some of them hitherto impassable will be in good shape for use.

Health Service Society

The business meeting of the Northwestern Hospital Health Service society will be held on Tuesday afternoon, September 11th, at three o'clock. Ladies are asked to keep this date in mind and attend the meeting.

A light lunch will be served and a silver offering accepted. Each member is asked to invite one or more friends to attend the meeting.

MUSSOLINI APPEALS TO AMERICAN OPINION

PREMIER MUSSOLINI's appeal to the American public will not win the approval of Italy's attitude with regard to the League of Nations. Despite the fact that the American people refused to have anything to do with the League of Nations, public opinion in America will stand by the contention that those who are members of the league should recognize the authority of an instrument that came into being by their deliberate choice. At a time when Americans are anxious to have individuals and groups and nations give proper respect to constituted authority and so soon after the day when a chancellor declared that a treaty amounted to nothing more than a scrap of paper, it is not likely that the people of the United States will fall over themselves to do honor to a government which, having accepted the provisions of the League of Nations, refuses to abide by these as soon as national interest demands a repudiation of principles already espoused.

The attitude of the American people to the League of Nations was clearly expressed by Colonel Roosevelt in a post-humous editorial in the Metropolitan Magazine of September, 1919. In discussing America's participation in the League of Nations, Colonel Roosevelt said: "Remember that the essential principle of the league, if it is to be successful, must be the willingness of each nation to fight for the right in some quarrel in which at the moment it seems we have no material concern. The will-power, the intelligent farsightedness, and the stern devotion to duty implied in such action stand infinitely above the loose willingness to promise anything characteristic of so many of the most vociferous advocates of such a league."

"Let us go into such a league but let us weigh well what we promise; and then train ourselves in body and soul to keep our promises."

Premier Mussolini in an interview says, "Indeed, the attempt made to refuse a great power like Italy the right to defend her own honor was a tangible demonstration of the dangers Americans were the first to detect in this organization, which, far from facilitating a solution of such controversies between states, renders them more difficult and more dangerous. This will not carry conviction to Americans, because, while Americans saw this danger, they acted on what they believed they saw and refused to become a party to the league whereas Italy did become a party to the league and now seeks to go her own road independent of the findings of the league on the question at issue, although by her acceptance of membership in the league she obligated herself to abide by the decisions of this body."

Colonel Roosevelt's stress on "let us weigh well what we promise" finds an echo in the American consciousness, and Americans are not willing to consider lightly obligations which have been deliberately assumed. The fact is that, because America is not a party to the league, America is in a position to make her decisions irrespective of the decisions of the council of the league while Italy, as a member of the league, had pledged herself to respect its decisions. Willingness to keep compacts when everything is going along smoothly is easy, but those who respect their word and their honor expect to stand true to their pledges when things are going against them, and they expect others to do the same.

FIRPO RENEWS HIS CONFIDENCE

PROFESSOR WILLIAM JAMES once said: "Act the way you ought to feel and you'll feel the way you ought to act." This may be reversed and the truth remain: "Feel the way you ought to act and you'll act the way you ought to feel."

There are certain men surrounding Luis Firpo who have sensed the value of the truth contained in this suggestion, and while a short time ago the challenger was ready to concede that he is not the equal of Dempsey, he is now confident that he can meet the champion and, if things break right, beat him.

Confidence has a great deal to do with a fight and with life itself. There is an over-confidence that is the mark of littleness, but this is no more damaging to the person it masters than an under-confidence, though it may be more objectionable to others.

Every now and again the world seems to get into the state that Firpo was in a few weeks ago. It is not sure of itself and it expects the worst to happen, and the worst does happen and it is likely that the expectation helps the worst to happen. The peoples of the world cannot win their battles over the forces they must meet if they attack with the feeling that they are already beaten, any more than Firpo can whip Dempsey if he enters the ring with the thought that the champion is invincible.

There is reason to hope that a larger confidence in the successful outcome of present struggles is coming in. There is reason why it should. The coal strike is settled and it didn't last long; the eight hour day has been established in the steel mills, the budget of the United States is met and there is a balance, there is a promise that taxes will be reduced; the tourist trade has increased; the railroads are getting back on their feet; the people are getting to work with a will, and only fear and under-confidence which breed hate and hesitation are slowing up the forward march.

There is strength in confidence; there is attack in confidence, and there is the hope of victory in confidence. Pessimism promises nothing but despair and defeat. Dempsey may knock out Firpo but even though he does the challenger will have met his defeat with a brave and confident heart which is infinitely better than taking the count though inability to stimulate the courage to meet the full force of the attack. Courage and confidence are worth a great deal.

INDIVIDUAL OPINION AND OFFICIAL PRONOUNCEMENTS

THE British press in part has agreed with the American critics of Lord Birkenhead. The press points out that Lord Birkenhead's opinions are his opinions and are not representative of British public opinion or of British official opinion.

It is unfortunate that an administration may be embarrassed by the speeches of men who were formerly members of a nation's government but have been retired by the will of the people. Such spokesmen have a right to attempt to influence public opinion in the country which they have served, but they are not serving the best interests of their own people when they come to another

country and express opinions which are not official but are taken as official by the public because of the prominence of the one who speaks.

The Daily News of London says that the British "would welcome an almost prohibitive tariff on the importation of foreign members of British cabinets and a rigid customs examination of the contents of their lecture tour portfolios." There are many Americans who feel that the best hope of the future lies in a rapprochement between the United States and Britain who will agree with the Daily News. Criticizing a man like Woodrow Wilson, in the land that called him twice to the highest place within the gift of the people, does not serve any useful purpose and such criticisms will not pay reparations nor induce the French to leave the Ruhr valley.

Both Britain and the United States are under administrations controlled by the political opponents of the men who were at the head of the respective governments during the World War and they are intent upon finding a platform upon which both governments may stand together for the purpose of securing present and future good. For those who served in administrations discredited by popular opinion to pass from one country to another to criticize those who were leaders of former governments is to invite hostility without any corresponding gain. Partisan politics may be in order in one's own country but should be dropped within the borders of another land, and the more especially when such discussion leads to criticism of a leader who was broken under the strain of his administration.

THE COAL STRIKE IS ENDED

PRESIDENT COOLIDGE did well to invite Governor Gifford Pinchot to settle the controversy between the anthracite operators and the miners. Since passing the matter over to the governor of Pennsylvania, Washington has said little about it, leaving the negotiations in the hands of the governor of the anthracite-producing state, whose knowledge of the industry and the personnel of the management and the labor unions marked him out as the most likely person to bring a satisfactory end to the negotiations.

In arriving at a settlement the operators have conceded the miners' demands that they be given a basic eight hour day, full recognition of the union—although the check-off they demanded has not been granted—recognition of collective bargaining and a 10 per cent increase in wages.

Early in the negotiations Governor Pinchot made the proposal which has now been accepted by both sides. His knowledge of the industry made it wise for the operators to accept his proposal, and it conceded so much to the miners that they would have been unwise to refuse to settle on the terms stipulated.

The settlement reflects credit on the president of the United States. The people want results and they are not concerned about how these are secured. The president might have attempted to handle the negotiations in Washington, with less promise of a successful outcome, but he turned the matter over to the governor of the anthracite-producing state who has won results. If the president shows that he has the ability to choose the right men for the doing of what needs to be done he will win the respect of the people who want things done. They will respect him all the more because he does not attempt to do them himself so that the credit for their accomplishment might be his.

BRAINERD'S male voice quartet is a trio now. R. E. Bemmels has decided to go West and that accounts for it. Those who have enjoyed the quartet's contributions to Brainerd's life will wish him well but—he's busted up the musical organization. One man sometimes counts for a great deal. He did, as one of the four entertainers.

SOME say that Germany and France are about to reach an agreement, while others say that there is no hope and that Germany is on the verge of collapse. If she does go under no one will profit through her submersion. Only an undertaker would get anything out of them then.

AN ambulance in Minneapolis while conveying one person to the hospital hit another with fatal results. That's often the way with reform movements; they serve one purpose and kill off another.

NAMED INSTRUCTOR

Rufus C. Roth, Brother of County Agent, to Teach Disabled Veterans

Rufus C. Roth, a brother of the Crow Wing County Agent, has been employed as an instructor for the disabled veterans, and began his duties today. Mr. Roth has formerly been agricultural instructor in the Crosby-Ironton schools.

The contract made between the government and the local board of education, for the training of these veterans who are living on farms they recently purchased, was signed some time ago, but trouble has been experienced in securing instructors.

It was understood at first that the territory to be covered by the Brainerd instructor would be confined to Crow Wing county, but this has been enlarged to cover a part of Morrison county, including Little Falls, on the south, and extends west as far as Wadena and east to Aitkin.

There will be three instructors in this territory, only one of whom, Mr. Roth, has been employed. Another is expected the later part of the week as stated by a member of the Brainerd board of education. These three will be under the supervision of a Mr. Uptegraph, of Aitkin, but will be employed by the local board of education.

TROOPS TO STOP MASKED PARADES

(By United Press)
Oklahoma City, Okla., Sept. 10.—Troops will be sent to McIntosh county, Oklahoma if necessary to enforce the orders of Governor J. C. Walton that the Ku Klux Klan must not hold masked parades or appear in public masked, it was announced at the office of the secretary of state today. The Klan had announced that a parade would be held near Choctaw Thursday despite the governor's orders.

AMUSEMENTS

Pola Negri Great in "Bella Donna"
Incontestably proving herself the greatest tragic actress of the screen, the famous European artiste, made her debut in her first American made Paramount picture, "Bella Donna" at the Lyceum yesterday. Suiting her personality and artistry to perfection "Bella Donna" is a screen creation by this gifted actress that will live long in the memory of those who see this remarkable cinema classic, produced by that master director, Geo. Fitzmaurice.

Mr. Nagel, Mr. Tearle and Miss Wilson, the featured players, render efficient support while the cast generally is of all star calibre. "Bella Donna" is one of the strongest pictures seen here in years, and no lover of supreme cinema excellence can afford to miss seeing it during the remainder of its run here, tonight and Tuesday.

N. D. Boys on Navy Team

Bismarck, N. D., Sept. 10.—Four of the North Dakota boys at the United States Naval Academy have made the freshmen football squad of 50, according to word received here. They are Jack Burke, end on the Bismarck football team last year; Cooper of Williston; Fitzmorris of Dickinson and Eek of Hettinger. The squad was chosen from 600 candidates.

Crosby Wins

Moose Lake, Sept. 10.—Crosby defeated Moose Lake here yesterday by a 5 to 3 score. Delbor and Petroberg formed the battery for the visitors. Johnson and Handschu formed the battery for the locals.

LOST AND FOUND—CALL 74

MARKET REPORT

(By United Press)

Dining Rooms of Reputation

CERTAIN CHEFS become famous for their culinary skill. Catering to the public spreads their fame. There are thousands of housewives who regularly display equal skill, for they too know how KITCHEN BOUQUET improves most dishes, how it brings out the full flavor of meats, "snaps up" the stews, improves gravies by making them well flavored and bringing out the deep, rich brown color; how it adds the last touch of tastiness to soups, sauces, etc., etc.

Add a tablespoonful just before taking off stove.

Your grocer sells lots of KITCHEN BOUQUET.

Get a bottle and win fame for your cooking.

KITCHEN BOUQUET

Back Wash

THE business of refining petroleum has many hazards—not the least of which accrues from the necessity of balancing the supply with the demand.

The Standard Oil Company (Indiana) always has kept itself in a position to supply the demand of its customers for petroleum products, no matter how great or abnormal the demand might be.

During the winter months, the Standard Oil Company (Indiana) refined and stored large quantities of gasoline in anticipation of the busy summer season. Other refiners in the Middle West pursued the same course.

In previous years the midcontinent refiners have found a ready market for their surplus product on the Atlantic seaboard.

This year the heavy, unprecedented and unlooked-for California production upset calculations. Enormous quantities of California crude petroleum and California gasoline were shipped to the Eastern seaboard by boat, flooding the market and cutting off one of the principal outlets of the midcontinent refiners.

The result was a back wash of distress gasoline in the Middle West which had to be sold.

It was this distress gasoline that the Governor of South Dakota was able to purchase at less than the present day cost of manufacture and distribution. By selling it without profit, and without any expense for distribution, he was enabled to announce a drastic, temporary reduction from the then existing selling price.

The Standard Oil Company (Indiana) while protesting that it was below the cost of production, refining and distribution plus a reasonable profit met this price because it is the established principle of the Standard Oil Company (Indiana) that its customers shall be able to buy its products as cheaply as they can buy similar products from any competitors.

The success achieved by the Standard Oil Company (Indiana) is due in larger measure to the fact that at all times it has held paramount the welfare of its customers whose respect and esteem it has won and intends to hold.

MUSSOLINI APPEALS TO AMERICAN OPINION

PREMIER MUSSOLINI'S appeal to the American public will not win the approval of Italy's attitude with regard to the League of Nations. Despite the fact that the American people refused to have anything to do with the League of Nations, public opinion in America will stand by the contention that those who are members of the league should recognize the authority of an instrument that came into being by their deliberate choice. At a time when Americans are anxious to have individuals and groups and nations give proper respect to constituted authority and so soon after the day when a chancellor declared that a treaty amounted to nothing more than a scrap of paper, it is not likely that the people of the United States will fall over themselves to do honor to a government which, having accepted the provisions of the League of Nations, refuses to abide by these as soon as national interest demands a repudiation of principles already espoused.

The attitude of the American people to the League of Nations was clearly expressed by Colonel Roosevelt in a post-humous editorial in the Metropolitan Magazine of September, 1919. In discussing America's participation in the League of Nations, Colonel Roosevelt said: "Remember that the essential principle of the league, if it is to be successful, must be the willingness of each nation to fight for the right in some quarrel in which at the moment it seems we have no material concern. The will-power, the intelligent farsightedness, and the stern devotion to duty implied in such action stand infinitely above the loose willingness to promise anything characteristic of so many of the most vociferous advocates of such a league."

"Let us go into such a league but let us weigh well what we promise; and then train ourselves in body and soul to keep our promises."

Premier Mussolini in an interview says, "Indeed, the attempt made to refuse a great power like Italy the right to defend her own honor was a tangible demonstration of the dangers Americans were the first to detect in this organization, which, far from facilitating a solution of such controversies between states, renders them more difficult and more dangerous. This will not carry conviction to Americans, because, while Americans saw this danger, they acted on what they believed they saw and refused to become a party to the league whereas Italy did become a party to the league and now seeks to go her own road independent of the findings of the league on the question at issue, although by her acceptance of membership in the league she obligated herself to abide by the decisions of this body."

Colonel Roosevelt's stress on "let us weigh well what we promise" finds an echo in the American consciousness, and Americans are not willing to consider lightly obligations which have been deliberately assumed. The fact is that, because America is not a party to the league, America is in a position to make her decisions irrespective of the decisions of the council of the league while Italy, as a member of the league, had pledged herself to respect its decisions. Willingness to keep compacts when everything is going along smoothly is easy, but those who respect their word and their honor expect to stand true to their pledges when things are going against them, and they expect others to do the same.

FIRPO RENEWS HIS CONFIDENCE

PROFESSOR WILLIAM JAMES once said: "Act the way you ought to feel and you'll feel the way you ought to act." This may be reversed and the truth remain: "Feel the way you ought to act and you'll act the way you ought to feel."

There are certain men surrounding Luis Firpo who have sensed the value of the truth contained in this suggestion, and while a short time ago the challenger was ready to concede that he is not the equal of Dempsey, he is now confident that he can meet the champion and, if things break right, beat him.

Confidence has a great deal to do with a fight and with life itself. There is an over-confidence that is the mark of littleness, but this is no more damaging to the person it masters than an under-confidence, though it may be more objectionable to others.

Every now and again the world seems to get into the state that Firpo was in a few weeks ago. It is not sure of itself and it expects the worst to happen, and the worst does happen and it is likely that the expectation helps the worst to happen. The peoples of the world cannot win their battles over the forces they must meet if they attack with the feeling that they are already beaten, any more than Firpo can whip Dempsey if he enters the ring with the thought that the champion is invincible.

There is reason to hope that a larger confidence in the successful outcome of present struggles is coming in. There is reason why it should. The coal strike is settled and it didn't last long; the eight hour day has been established in the steel mills, the budget of the United States is met and there is a balance, there is a promise that taxes will be reduced; the tourist trade has increased; the railroads are getting back on their feet; the people are getting to work with a will, and only fear and under-confidence which breed hate and hesitation are slowing up the forward march.

There is strength in confidence; there is attack in confidence, and there is the hope of victory in confidence. Pessimism promises nothing but despair and defeat. Dempsey may knock out Firpo but even though he does the challenger will have met his defeat with a brave and confident heart which is infinitely better than taking the count though inability to stimulate the courage to meet the full force of the attack. Courage and confidence are worth a great deal.

INDIVIDUAL OPINION AND OFFICIAL PRONOUNCEMENTS

THE British press in part has agreed with the American critics of Lord Birkenhead. The press points out that Lord Birkenhead's opinions are his opinions and are not representative of British public opinion or of British official opinion.

It is unfortunate that an administration may be embarrassed by the speeches of men who were formerly members of a nation's government but have been retired by the will of the people. Such spokesmen have a right to attempt to influence public opinion in the country which they have served, but they are not serving the best interests of their own people when they come to another

country and express opinions which are not official but are taken as official by the public because of the prominence of the one who speaks.

The Daily News of London says that the British "would welcome an almost prohibitive tariff on the importation of foreign members of British cabinets and a rigid customs examination of the contents of their lecture tour portfolios." There are many Americans who feel that the best hope of the future lies in a rapprochement between the United States and Britain who will agree with the Daily News. Criticizing a man like Woodrow Wilson, in the land that called him twice to the highest place within the gift of the people, does not serve any useful purpose and such criticisms will not pay reparations nor induce the French to leave the Ruhr valley.

Both Britain and the United States are under administrations controlled by the political opponents of the men who were at the head of the respective governments during the World war and they are intent upon finding a platform upon which both governments may stand together for the purpose of securing present and future good. For those who served in administrations discredited by popular opinion to pass from one country to another to criticize those who were leaders of former governments is to invite hostility without any corresponding gain. Partisan politics may be in order in one's own country but should be dropped within the borders of another land, and the more especially when such discussion leads to criticism of a leader who was broken under the strain of his administration.

THE COAL STRIKE IS ENDED

PRESIDENT COOLIDGE did well to invite Governor Gifford Pinchot to settle the controversy between the anthracite operators and the miners. Since passing the matter over to the governor of Pennsylvania, Washington has said little about it, leaving the negotiations in the hands of the governor of the anthracite-producing state, whose knowledge of the industry and the personnel of the management and the labor unions marked him out as the most likely person to bring a satisfactory end to the negotiations.

In arriving at a settlement the operators have conceded the miners' demands that they be given a basic eight hour day, full recognition of the union—although the check-off they demanded has not been granted—recognition of collective bargaining and a 10 per cent increase in wages.

Early in the negotiations Governor Pinchot made the proposal which has now been accepted by both sides. His knowledge of the industry made it wise for the operators to accept his proposal, and it conceded so much to the miners that they would have been unwise to refuse to settle on the terms stipulated.

The settlement reflects credit on the president of the United States. The people want results and they are not concerned about how these are secured. The president might have attempted to handle the negotiations in Washington, with less promise of a successful outcome, but he turned the matter over to the governor of the anthracite-producing state who has won results. If the president shows that he has the ability to choose the right men for the doing of what needs to be done he will win the respect of the people who want things done. They will respect him all the more because he does not attempt to do them himself so that the credit for their accomplishment might be his.

BRAINERD'S male voice quartet is a trio now. R. E. Bemmels has decided to go West and that accounts for it. Those who have enjoyed the quartet's contributions to Brainerd's life will wish him well but—he's busted up the musical organization. One man sometimes counts for a great deal. He did, as one of the four entertainers.

SOME say that Germany and France are about to reach an agreement, while others say that there is no hope and that Germany is on the verge of collapse. If she does go under no one will profit through her submersion. Only an undertaker would get anything out of them then.

AN ambulance in Minneapolis while conveying one person to the hospital hit another with fatal results. That's often the way with reform movements; they serve one purpose and kill off another.

NAMED INSTRUCTOR

Rufus C. Roth, Brother of County Agent, to Teach Disabled Veterans

Rufus C. Roth, a brother of the Crow Wing County Agent, has been employed as an instructor for the disabled veterans, and began his duties today. Mr. Roth has formerly been agricultural instructor in the Crosby-Ironton schools.

The contract made between the government and the local board of education, for the training of these veterans who are living on farms they recently purchased, was signed some time ago, but trouble has been experienced in securing instructors.

It was understood at first that the territory to be covered by the Brainerd instructor would be confined to Crow Wing county, but this has been enlarged to cover a part of Morrison county, including Little Falls, on the south, and extends west as far as Wadena and east to Aitkin.

There will be three instructors in this territory, only one of whom, Mr. Roth, has been employed. Another is expected the later part of the week as stated by a member of the Brainerd board of education. These three will be under the supervision of a Mr. Uptegraph, of Aitkin, but will be employed by the local board of education.

TROOPS TO STOP MASKED PARADES

(By United Press)
Oklahoma City, Okla., Sept. 10.—Troops will be sent to McIntosh county, Oklahoma if necessary to enforce the orders of Governor J. C. Walton that the Ku Klux Klan must not hold masked parades or appear in public masked, it was announced at the office of the secretary of state today. The Klan had announced that a parade would be held near Choctaw Thursday despite the governor's orders.

KITCHEN BOUQUET

Back Wash

THE business of refining petroleum has many hazards—not the least of which accrues from the necessity of balancing the supply with the demand.

The Standard Oil Company (Indiana) always has kept itself in a position to supply the demand of its customers for petroleum products, no matter how great or abnormal the demand might be.

During the winter months, the Standard Oil Company (Indiana) refined and stored large quantities of gasoline in anticipation of the busy summer season. Other refiners in the Middle West pursued the same course.

In previous years the midcontinent refiners have found a ready market for their surplus product on the Atlantic seaboard.

This year the heavy, unprecedented and unlooked-for California production upset calculations. Enormous quantities of California crude petroleum and California gasoline were shipped to the Eastern seaboard by boat, flooding the market and cutting off one of the principal outlets of the midcontinent refiners.

The result was a back wash of distress gasoline in the Middle West which had to be sold.

It was this distress gasoline that the Governor of South Dakota was able to purchase at less than the present day cost of manufacture and distribution. By selling it without profit, and without any expense for distribution, he was enabled to announce a drastic, temporary reduction from the then existing selling price.

The Standard Oil Company (Indiana) while protesting that it was below the cost of production, refining and distribution plus a reasonable profit met this price because it is the established principle of the Standard Oil Company (Indiana) that its customers shall be able to buy its products as cheaply as they can buy similar products from any competitors.

The success achieved by the Standard Oil Company (Indiana) is due in larger measure to the fact that at all times it has held paramount the welfare of its customers whose respect and esteem it has won and intends to hold.

11 ROAD JOBS LET; PRICES ARE LOWEST

State Highway Department Awards Contracts for 75 Miles of Grading and Other Improvements

WORK ON CROW WING CO. ROADS

Good Progress Being Made on Breezy Point and Bay Lake Roads

Seventy-five miles of new grading, 6 miles of gravel surfacing, 7 1/2 miles of paving and 13 new bridges will be added to the list of Minnesota trunk highway improvements by contract awards announced this week by Charles M. Babcock, state highway commissioner.

The betterments are well distributed over the system, and while they are made possible largely by county reimbursement bonds, are in order under the state program. Operations on the various jobs are to be rushed to afford highway users the earliest use of the improvements.

John H. Mullen, first assistant commissioner and chief highway engineer, said the bids are the lowest this year and nearly all back on pre-war levels, due partly to savings to be made on winter work. The figures are from ten to twenty per cent below those of the previous letting. Every low bidder was given one or more awards and all contracts were let on the lowest bids except in one or two instances where the next lowest were accepted to expedite work for public advantage. A large number of jobs went to local contractors and this is attributed to the advance notices published free by newspapers throughout the state. Mr. Mullen said that these projects, and others to be put under contract this fall will virtually complete surfacing on all grading done under the new highway program.

A new type of steel cable guard-rail has been adopted by the highway department and under a contract awarded on the lowest bid about 150,000 lineal feet was purchased at 22 cents a lineal foot, installed.

Surfacing has been completed on the first 3 1/2 miles of the highway between Pequot and Breezy Point, and work was started today by John Humphrey, contractor, on the last 1 1/2 miles of this road. He will clear, grub and grade this stretch work to be completed by December first.

P. W. Roark is working on the new Bay lake road, having two miles only to complete. Eight miles have been finished. This road will connect Deerwood and Bay Lake with state highway No. 18.

The supervisors of Pelican and Lake Edwards townships have been instructed to begin work at once on the road running from Merrifield to Breezy Point, known locally as the "Inland Passage." The surveying has been completed, and the construction will be under the supervision of County Highway Engineer, Walter M. Murphy.

This road is an important one from Brainerd's standpoint, since it offers a much shorter route to Pelican lake and Breezy Point than has been available in the past, and opens up a very good trade territory, which in the past has found it difficult to get to this city.

DAIRY INSPECTOR

Dr. R. A. Hallquist Gave Tubercular Test to Herds, and Inspected Many Dairies

Below is given the monthly report of the city dairy inspector for the month ending August 31st, as submitted to the city council at its last meeting by Dr. R. A. Hallquist.

Cows in herds tubercular tested:

W. T. Canniff	6
H. B. Tangen	1
D. W. Northrup	1
T. Benda	1
W. T. Carlson	4
C. Oravala	4
O. Emilson	1
H. Hendrickson	5

No cows condemned. Dairies inspected and found satisfactory: A. Fredstrom, I. Swift, J. Peterson, R. Hoopman, T. Benda, W. T. Carlson, C. Oravala, M. Kivisto, D. W. Northrup, Echo Stock Farm, M. LeMoine, F. Wolvert, Oak Lawn Dairy.

Alpha Class

The Alpha class of the First Baptist church will hold its regular monthly meeting on Tuesday evening, at the home of A. E. Gustafson, 704 South Tenth street. A large attendance is desired. Visitors welcome.

MISS ARLOINE WELCH DIED

Daughter of F. B. Welch, Formerly of Brainerd, Passed Away in Richey, Montana

The Richey Pilot, of Richey, Montana, gives this account of the death and funeral of Miss Arloine Welch, daughter of former residents in Brainerd. Her father, F. B. Welch, at one time was in business here as a member of the hardware firm, Hawkins Welch & Hawkins on South Seventh street.

The article states: The city and vicinity were saddened last Wednesday when word was passed around that Miss Arloine Welch had received the final summons at the home of her parents, Mr. and Mrs. F. B. Welch, and passed away from the dread tuberculosis, after long suffering.

The funeral services were held at 10:30 o'clock Saturday from the home, and were in charge of Rev. Durant of Glendive, an old time friend of the family, who spoke beautifully of the life and character of the one who had gone on before. The pallbearers were W. P. Arnold, Al Hogan, R. P. Foley, John Kelly, J. R. Henson and E. G. Ufer. Six ladies also acted as bearers for the large number of floral offerings that had been sent by friends. The procession that followed the remains to their last resting place in the Richey cemetery was the largest ever seen in the city, and all the business places were closed during the hours of the funeral. Those from a distance who came for the last sad rites were her sister, Mrs. Karl Henk of Rothsay, Minn., and an uncle and aunt, Mr. and Mrs. J. C. Davis of Brainerd, Minn.

Miss Arloine Welch was born October 18, 1898, at Hancock, Wis. When she was three years of age the family moved to Brainerd, Minn., and three years later to Fergus Falls in the same state. Two years later the family went to Duluth.

Miss Welch completed two years of high school work in Duluth, and finished her course in 1916 at Miles City, Montana, where the family later resided. She completed the advanced course of the Winona Normal in 1918, the family meanwhile having moved to Richey in 1917.

She was in her third year of teaching at Baker, Mont., when attacked with a hemorrhage, the first indication of her having the dread disease. Later treatment was given at an Episcopal Hospital, Oakes Home, at Denver and in the Montana State Sanitarium at Galen. But it was all of no avail. Her condition gradually grew worse and she requested to come home, where she had been since May of last year. After long but patient suffering, she passed away at 9:15 a. m., August 22, at the age of 24 years, 10 months and 4 days.

Miss Welch is survived by her father and mother, Mr. and Mrs. F. B. Welch; one sister, Marie; and her grandmother, Mrs. Wilbur, residing in Richey; a sister Mrs. Karl Henk, of Rothsay, Minn.; uncle and aunt, Mr. and Mrs. J. C. Davis of Brainerd, Minn.; and other relatives at a distance.

All that loving friends could do was done to assuage the grief-stricken relatives, but only time itself can partially heal the wounds caused by the great sorrow that is now theirs.

Meet Tuesday Evening

The Business & Professional Women's club will hold its first meeting of the year Tuesday evening, Sept. 11th, at the Civic and Commerce Association club rooms. The new teachers are invited to join and those who wish to do so may hand their names and addresses to any member before the meeting.

MANY LIQUOR CASES IN COURT

George Swanson, Arraigned, Demands Examination and Hearing Set Sept. 13

DAVID BARRY ARRAIGNED

Case Up Thursday Afternoon—Ed. Grondin Fined \$50 for Maintaining Nuisance

In municipal court Saturday afternoon, George Swanson was arraigned on a charge of selling intoxicating liquor. He demanded an examination, and the hearing was set for Thursday, September 13th at 10 a. m. Bail was set at \$500 which was furnished. M. E. Ryan is Swanson's attorney.

David Barry, of the Kindred hotel, and John Flannagan, (The latter did not appear) are also charged with selling intoxicating liquor on Monday. Barry was arraigned and asked for an examination, which was set for Thursday afternoon. His bail was also set at \$500, and furnished in cash.

Ed. Grondin, residing in West Brainerd, was arraigned on a charge of maintaining a nuisance, pleaded guilty and was fined \$50 or 30 days in jail.

Wilmar Behme, charged with assault, whose case was set for Monday morning, was a court and demanded a jury trial. The jury was drawn, the venire returnable on Tuesday morning at 10 a. m. County Attorney Walter F. Wieland is prosecuting the case, and Swanson and Swanson are defending Behme, who is charged with assaulting Fred Haubrick.

CARS COLLIDE SUNDAY

Buffalo Creek Bridge Scene of Crash of Chevrolet Truck and Ford Roadster

A Chevrolet truck, driven by Clyde Neiderer, of Excelsior, and a Ford roadster owned by Roy Norquist of Brainerd, collided on State Highway No. 27 near the Buffalo creek bridge a little before ten o'clock Sunday morning.

Norquist received quite a bad cut behind his ear and a bruised knee. Neiderer escaped injury. The Ford front axle was broken, a large hole rammed in the radiator, fenders and wheels smashed. The Chevrolet radiator was badly damaged, the front axle torn out and a wheel broken.

Neiderer stated that the roadway had just been dragged and that there was considerable loose dirt in the center, in which he could not steer his car. He says that he cranked the wheels in an effort to get out of the way, but in the loose dirt, the car did not respond to the steering wheel.

Neiderer is a former resident of Brainerd, his father at one time was clerk in the Antlers hotel.

Card of Thanks

We wish to thank the many friends and neighbors for their kindness and sympathy in our recent sad bereavement, the death of our darling baby, Melton Joline Peterson. Also for the many beautiful floral offerings.

MUNICIPAL COURT

Report for August as Submitted to Council Consideration Last Meeting

The report of the clerk of the municipal court for the month of August, as submitted to the city council at its last meeting, is as follows:

Number of arrests in city cases	20
Number of fines in city cases	16
Number of suspended sentences	3
Number discharged after hearing	1
Number cases appealed	1
Number of civil cases commenced	26
Number of civil cases settled and costs paid	9
Number of arrests in state cases	15
Number of fines paid in state cases	3
Number certified to the district court	5
Amount of fines collected in city cases	\$220.
Amount of fees collected in city cases	4.
Amount of fees collected in civil cases	38.
Amount of fines collected in state cases	125.
Amount of fees collected in state cases	2.
Total	\$389.

POLICE DEPARTMENT

21 Arrests Made in August, Total of Fines Collected Was \$220

Following is the report of the Brainerd police department for the month ending August 31st, as submitted by Chief Harry O. Gaskill to the city council at its Wednesday night meeting.

Number of arrests in August, 21.

Charges	
Reckless driving	3
Speeding	9
Drunk	4
Disorderly	4
Possession of liquor	1
Total fines collected, \$220.	

BRUCE HAYES HURT

Motorcycle Driven by Young Man and Ford in Collision

A motorcycle, driven by Bruce Hayes, and a Ford driven by a farmer named Aspholm, collided at the intersection of South Seventh and Maple streets at noon today.

Hayes, according to witnesses, was thrown from his motorcycle and the machine thrown about four feet by the impact. The young man was picked up by a passing car and taken home. His hip is injured and he has several bruises about the body.

The motorcycle frame is bent, the crankcase cracked and clutch broken. The Ford sustained a bent fender.

Aspholm is quoted as saying that he estimated that Hayes would be off the intersection before he reached that point, and that he could not stop quickly enough when he found that the machines were going to collide.

CENTER-LINING PAVEMENTS

State Highway Department Adopts Plan to Help Trunk Highway Users to Keep to Right

Center lines are being painted on the 416 miles of paving on the Minnesota trunk highways system—so-called Babcock roads marked with official numbers on yellow stars.

The lines are intended to aid drivers to keep on the right side and nearer pavement edges, thus preventing side-swiping and like accidents. A special machine has been built at the state highway department shops to paint the strips on the pavements. A 4-inch rubber tire on a small wheel puts a strip of like width in the exact center of the pavement as other wheels guide the truck on which the machine is mounted. The outfit is expected to average 25 miles of paving a day and soon will cover all hard-surfaced sections of the system.

Bethany Men's Club

The B. D. men's club of the Swedish Bethany church will have a wiener roast at Lum park tomorrow evening starting about 6:30. They have invited the ladies and children to the party and visitors are always welcome.

CHIROPRACTIC IS

Chiropractic is often called a treatment. It is not. It is an adjustment in just the same sense that you adjust a watch, a linotype, or the knitting machinery in a factory. The adjustment consists in causing the vertebrae to assume their natural position in the spine by force applied by the hands only. This force releases the pinched nerve, the mental impulses then flow freely and the human machine works perfectly again. Consultation, spinal analysis and booklets free. House and country calls made, day or night.

11 ROAD JOBS LET; PRICES ARE LOWEST

State Highway Department Awards Contracts for 75 Miles of Grading and Other Improvements

WORK ON CROW WING CO. ROADS

Good Progress Being Made on Breezy Point and Bay Lake Roads

Seventy-five miles of new grading, 6 miles of gravel surfacing, 7 1/2 miles of paving and 13 new bridges will be added to the list of Minnesota trunk highway improvements by contract awards announced this week by Charles M. Babcock, state highway commissioner.

The betterments are well distributed over the system, and while they are made possible largely by county reimbursement bonds, are in order under the state program. Operations on the various jobs are to be rushed to afford highway users the earliest use of the improvements.

John H. Mullen, first assistant commissioner and chief highway engineer, said the bids are the lowest this year and nearly all back on pre-war levels, due partly to savings to be made on winter work. The figures are from ten to twenty per cent below those of the previous letting. Every low bidder was given one or more awards and all contracts were let on the lowest bids except in one or two instances where the next lowest were accepted to expedite work for public advantage.

A large number of jobs went to local contractors and this is attributed to the advance notices published free by newspapers throughout the state. Mr. Mullen said that these projects and others to be put under contract this fall will virtually complete surfacing on all grading done under the new highway program.

A new type of steel cable guard-rail has been adopted by the highway department and under a contract awarded on the lowest bid about 150,000 lineal feet was purchased at 22 cents a lineal foot, installed.

Surfacing has been completed on the first 3 1/2 miles of the highway between Pequot and Breezy Point, and work was started today by John Humphrey, contractor, on the last 1 1/2 miles of this road. He will clear, grub and grade this stretch work to be completed by December, first.

P. W. Roark is working on the new Bay lake road, having two miles only to complete. Eight miles have been finished. This road will connect Deerwood and Bay lake with state highway No. 18.

The supervisors of Pelican and Lake Edwards townships have been instructed to begin work at once on the road running from Merrifield to Breezy Point, known locally as the "Inland Passage." The surveying has been completed, and the construction will be under the supervision of County Highway Engineer, Walter M. Murphy.

This road is an important one from Brainerd's standpoint, since it offers a much shorter route to Pelican lake and Breezy Point than has been available in the past, and opens up a very good trade territory, which in the past has found it difficult to get to this city.

DAIRY INSPECTOR

Dr. R. A. Hallquist Gave Tubercular Test to Herds, and Inspected Many Dairies

Below is given the monthly report of the city dairy inspector for the month ending August 31st, as submitted to the city council at its last meeting by Dr. R. A. Hallquist.

Cows in herds tubercular tested:

C. Telstad	3
Riverside Dairy	12
W. T. Canniff	6
H. B. Tangen	1
D. W. Northrup	1
T. Benda	1
W. T. Carlson	4
C. Oravala	4
O. Emilson	1
H. Hendrickson	5

No cows condemned. Dairies inspected and found satisfactory: A. Fredstrom, I. Swift, J. Peterson, R. Hoopman, T. Benda, W. T. Carlson, C. Oravala, M. Kivisto, D. W. Northrup, Echo Stock Farm, M. LeMoine, F. Wolvert, Oak Lawn Dairy.

Alpha Class
The Alpha class of the First Baptist church will hold its regular monthly meeting on Tuesday evening, at the home of A. E. Gustafson, 704 South Tenth street. A large attendance is desired. Visitors welcome.

MISS ARLOINE WELCH DIED

Daughter of F. B. Welch, Formerly of Brainerd, Passed Away in Richey, Montana

The Richey Pilot, of Richey, Montana, gives this account of the death and funeral of Miss Arloine Welch, daughter of former residents in Brainerd. Her father, F. B. Welch, at one time was in business here as a member of the hardware firm, Hawkins Welch & Hawkins on South Seventh street.

The article states: The city and vicinity were saddened last Wednesday when word was passed around that Miss Arloine Welch had received the final summons at the home of her parents, Mr. and Mrs. F. B. Welch, and passed away from the dread tuberculosis, after long suffering.

The funeral services were held at 10:30 o'clock Saturday from the home, and were in charge of Rev. Durant of Glendive, an old time friend of the family, who spoke beautifully of the life and character of the one who had gone on before. The pallbearers were W. P. Arnold, Al Hogan, R. P. Foley, John Kelly, J. R. Henson and E. G. Ufer. Six ladies also acted as bearers for the large number of floral offerings that had been sent by friends. The procession that followed the remains to their last resting place in the Richey cemetery was the largest ever seen in the city, and all the business places were closed during the hours of the funeral. Those from a distance who came for the last sad rites were her sister, Mrs. Karl Henk of Rothsay, Minn., and an uncle and aunt, Mr. and Mrs. J. C. Davis of Brainerd, Minn.

Miss Arloine Welch was born October 18, 1898, at Hancock, Wis. When she was three years of age the family moved to Brainerd, Minn., and three years later to Ferguson Falls in the same state. Two years later the family went to Duluth.

THREE VETERANS BACK FOR RED WING ELEVEN

Red Wing, Sept. 10.—Only three lettermen reported for football practice to the new high school athletic coach, F. J. Putzier, in response to his call. The three men from last year's team are Captain Hedin, Stageberg and Hallway, all of whom are slated for positions with the regulars this year.

Despite the dearth of veterans, Putzier says he has a wealth of good material from which to develop this year's team.

FANNING WITH FARRELL

DEMPSEY AND FIRPO BOTH SAVAGE IN RING

By HENRY L. FARRELL
United Press Sports Editor

New York, Sept. 10.—Crowd psychology, which was expected to have such a big influence over Jack Dempsey when he fought Georges Carpentier in Jersey City, and which did not, hardly will be any kind of an important factor in the champion's coming fight with Luis Firpo, the South American giant.

The fight of neither boxer should be affected by the attitude taken or voiced by the spectators. Firpo will not be able to understand any verbal blows that might be tossed at him from the house, and Dempsey will not be given. If he should get the jeers and hisses that came after he had been in one respect, Dempsey will not be affected by the reception that he is given. If he should get the jeers and hisses that came after he had been presented to the throng in Jersey City, he will fight just the same. But if strange sounds of a monstrous cheer should come to him, he may fight a tremendously better fight.

Since he won the championship by stopping Jess Willard in 1919 at Toledo, nothing but the raucous notes of the razz have been directed at him. Slacker charges resulting from what he did, or didn't do, during the war and the heavy financial demands he exacted for his services have made him intensely unpopular.

Whether this spirit of animosity on the part of the public is just, is beside the point. The fact is that he has been razed every time he made his appearance in the ring. He was thought so little of by the people around Shelby that the announcer almost forgot to introduce him after he had devoted several minutes to the glorification of Gibbons.

He was introduced second at Jersey City and after hearing the greatest

VILLA OUTPOINTS TAYLOR IN BATTLE

Chicago, Sept. 10.—Probably the greatest fight in history among the tiny fellows took place Saturday at Hawthorne race track when Pancho Villa flyweight champion, outpointed Bud Taylor of Terra Haute, after 10 rounds of battling that never will be forgotten by the 12,000 fans who braved the elements.

After the third round it was a give and take melee. Taylor was in there to win and he tried every minute. Villa was there for the same purpose and hardly a minute went by without some action that brought the fans to their feet.

Though Taylor was whipped, credit should be given him for putting up one of the greatest battles of his career. If anyone had an idea that he lacked a heart, that should be dis-

avation ever given to a foreign athlete in the United States, he had to stand up under a barrage of boos and jeers when he was introduced as the American defender of the world's championship.

Through it all, Dempsey remained unmoved. Stung terribly as he must have been around the heart, the champion went out and did his stuff and even after winning it was very little of a hand he ever got.

Many followers of boxing believe that Dempsey will be the popular fighter when he appears for his bout with Firpo. The South American has been held up as a penurious individual, out for the money alone. He hasn't the war record that Carpentier had to endure himself to the professional patriots that have been maligning Dempsey and perhaps the crowd will look upon and support Dempsey as the American representative against a foreigner.

After recovering from the shock that would attend a real good reception, if he gets it, Dempsey probably would fight as he never fought before.

disputed after Saturday's showing.

Villa is a champion, of that there is no doubt, but he found a Tartar in the Hoosier boy.

In the scheduled semi-windup which was postponed until after the main event because of the threatening skies, Tommy O'Brien knocked out Elinio Flores, Villa's sparring partner.

Joe O'Hara, Fort Dodge, Ia., beat Cowboy Padgett, Dolores, Colo., in the other preliminary.

NO NEW RECORDS SET IN WILCO A. A. MEET

New York, Sept. 10.—Although no world's records were broken because of a damp track, several creditable performances were turned in at the Wilco A. A. athletic carnival.

Loren Murchison, national sprint champion, was the individual star of the day, scoring first in both sprints and gave the all east 400 meter relay a considerable lead over their western rivals.

Victor Ascher of the Chicago A. A., won the 400 meter run from a fast field in 49 seconds, the nearest approach to a world's record of the day. Joie Ray won his event in handy fashion.
